CURRENT SPORTING NOTES

A statement given out by one of the Caron, Nev., representatives of Dan Stuart is that the contest between Corbett and Fitzsimmons March 17 will almost certainly take place at Carson. At Carson every one is preparing for the event, even cleaning the streets as they were never cleaned before. All public buildings and many private ones will be used to furnish quarters for the visitors from the east. No serious attention is given the bill introduced in the senate to limit the admis-

sion fee to \$1.

The Western Union Telegraph Company has six wires from Reno to Virginia City, but three of them have been taken down and will be connected with the main line at Reno and run to Carson to handle the immense business incident to a contest of this magnitude. Already the capacity of the present line is being strained, and extra operators will arrive at Carson shortly. sion fee to \$1. the present line is being strained, and extra operators will arrive at Carson shortly. The railroad has slightly increased its force at the shops, getting cars in condition, and this force is to be substantially increased in a few days.

Fitzsimmons will arrive at the Hot Springs early next week, and make that his training ground, where he will be one mile from town. Corbett will follow shortly to Steamboat Springs, which is on the rail-

day they wish on special trains that will be run for that purpose.

The exact battle ground has not yet been selected, and will not be for some time, but it will probably be near the race track, which is almost in the center of the city of Carson. 10 to 7 on Corbett.

Interest in the contest between Fitzsimnons and Corbett grows apace at San Francisco, although as yet very little noney has been wagered there. Corbett is slight favorite, at 10 to 7, but odds are ikely to be reduced before the fight. Charles L. Ascher says: "I do not believe Corbett can get in condition for the fight." M. A. Gunst: "I think Corbett will win in twenty rounds." Bill Delaney: "I think Corbett will win. Length of fight depends upon Fitzsimmons'

actics."
Billy Jordan: "Fitz will win in three rounds if he wants to. Corbett has no show at all. I will bet he will never show It is estimated that from 1,000 to 5,000 will go to see the Eight.

CONFERRING WITH CORBETT.

Dan Stuart Pays a Flying Visit to the

Pugilist. KANSAS CITY, February 4.—Dan Stuart, the promoter of puglism, paid a flying visit to Kansas City last night, and for one hour was in consultation with Pugillst Corbett. To a reporter Mr. Stuart said that the purpose of his visit was to se-cure a profitise from the pugilist that he will do his training in Nevada, Stuart having promised the Nevadans that both Corbett and Fitzsimmons would do their training in that state. On receiving, a satisfactory reply from Correct, Mr. Stuart returned to Dallas,

CARSON CITY, Nev., February 4.—The dispatch from San Francisco, announcing that United States Judge McKenna and others had declared that the federal government of the state o ernment had no right to interfere and pre-vent the Corbett-Fitzsimmons fight in Ne-vada has caused great rejoicing here. Nothing now atands between Carson and the great pugilistic event that will bring thousands of visitors and thousands of dol-

lars to the city.

Virginia City is putting in a strong bid for the fight, offering \$10,000 cash. The Enterprise prints a list of hotels and lodging houses on the Comstock, and the number of people they can hold, giving an estimate of 15,000 in all. The fighters themselves, however are to be considered, and neither however, are to be considered, and neither will consent to fight at such a great eleva-tion. It is nearly 7,000 feet above the sea level, and the pugilists would be com-pletely winded in a few rounds. The bill introduced by Senator Mills to reduce the rate of admission will probably be allowed to sleep its sleep in the committee, and never be called up. Orders for quarters in the hotels are coming in from all parts of

SAN FRANCISCO, February 4.—When the news came over the wires that Al Smith of New York had \$40,000 to bet on Corbett at odds of 7 to 10, the sports at this end prophesied that more money would change hands over the match in Nevada than over the Corbett-Sullivan

Nevada than over the Corbett-Sullivan fight.

A. B. Daniels, who is said to act as agent of Phil. Dwyer, said that he had some Corbett money to invest. As a feeler he was willing to bet \$1,000 against \$900 that Corbett would win, or if any of Fitzsimmons' friends cared for a fancy wager he would lay \$10,000 against \$9,000 that the match would go in Corbett's favor. None of the offers found takers. Harry Corbett, brother of Jim, offered to bet \$200 against \$1,000 that Jim would win in eight rounds or less. Judging from this eight rounds or less. Judging from this there will be some big betting in San Fran-cisco when the men have both settled down to training. The opinion is expressed on all sides that there will be less odds on the forthcoming fight than any other big match that has taken place in years.

LAWSON'S GREAT ATTEMPT.

Will Endenvor to Smash Skating Records From 10 to 50 Miles. John Lawson, the "Terrible Swede," has a big task before him this evening in his attempt to lower professional skating records from ten to fifty miles. His attempt will begin at the Convention Hall Ice Palace at 5 o'clock this afternoon, and it is expected that he will end his long journey about 8:30. Lawson is going after forty one records, and it is believed that he will establish some new marks. He will have establish some new marks. He will have to skate 500 laps, as the track is ten laps to the mile, and he must make an average speed of about sixteen miles an hour in order to equal the amateur record. The professional records are about an hour slower than the amateur. He will be paced by Stites, Cassin, Williams, Le Mat, Hewes and other speedy local skaters. This is the first time a wholesate record-breaking attempt has been made in this city, and if the Swede succeeds there is nothing that will be too good for him that it is in the power of the local cyclists or skaters to furnish.

BASE BALL.

President Von der Ahe of the St. Louis base ball club, continued his conference with President Robison of the Cleveland club yesterday. Von der Ahe left the city at 2 pm. Both he and Mr. Robison declared that no agreement had been reached regarding an exchange of players, and Mr. Robison added that it was safe to say there would be no deal as a result of President Von der Ahe's visit to Cleveland. Secretary Muir of the Cleveland club has given out the following statement: "Mr. Robison would rather sell the club entire than sell or exchange any one of his star players, but he will not sell the club. Wallace will not be exchanged for Holmes. Mr. Robison prefers Blake to Holmes. McCreery is the only Louisville player that is wanted, Clark not being for sale. In reference to the story that Von der Ahe's visit was for the purpose of purchasing six of Cleveland's men, Mr. Robison says that it was the worst fake of the many fakes this year. "Why do you suppose," said Mr. Robison, "that Von der Ane, who sold his best player for a cash consideration, would expend money in bolstering up his team? Besides Mr. Von der Ahe has made no proposition of this nature to me, and until he does I can say nothing."

ROWING.

Prof. J. H. Beale, the chairman of the Harvard athletic committee, said last night at Cambridge, Mass., that the long-expect-

Although Prof. Beale refused to state positively the nature of the committee's final proposition to Yale, the Philadelphia Press correspondent says he has the lost Press correspondent says he has the Press correspondent says he has the lest authority for stating that Harvard will not row Yale unless the latter comes into the Cornell race, and that unless Yale concedes this the crimson and the blue will not meet this year in any branch of sports. Am making Tallor-made SUITS in my acknowledged rantchiess style, of imported cheviots, serges, beavers, coverts, novelties and camel's hair goods, for \$45-ailk-lined throughout-or silk-lined coat and French percaline-lined shirt, \$40. These goods are all suitable for spring wear, and cost from \$2.50 to \$5.50 a yard. Would advise an early caff, as they cannot hast long.

My INAUGURATION BALL GOWNS will be superb. I am receiving special models from my Paris agent each week, ja20-s, t, th, 28
